FMG U-plough is really multiuse plough. It is combination of bulldozer blade, articulated plough and collecting plough. U-plough consists of main wing and two flipper wings and the turning angle of side wings are even 175 degrees. The plough is the most popular, especially in wheel loaders use.

MULTIPURPOSE AND DURABLE PLOUGH THAT SUITS FOR TRACTOR AND WHEEL LOADER

THE BIGGEST WORK WIDTH OF U-PLOUGH is 6,20 meters, that especially suitable for wheel loaders.

DUE TO THE TURNING WINGS the plough can be driven even in tight places

TURNING ANGLE OF SIDE WINGS IS 175°

STIFF SPRINGS improve safety and reduce the risk of injury.
